EVS Cart Extension

Simply add to your existing cart or base to make your EVS tower even more portable. It will make moving the tower a one person, one handed job. Compatible with all EVS25 Towers.

\$395.00

EVS RG Pac

Rain gear package is custom fitted for the EVS25 & EVS35. Help protect your investment by providing some protection from the elements. Protects the three electronic components: remote, camcorder, and monitor.

Includes:

- Camcorder Cover
- Monitor Hood
- Remote Sleeve
- Draw String Travel Bag

\$175.00

EVS Travel Case

The case is designed to help protect the EVS25 and EVS35 while shipping or flying. It is custom made for our towers and will make travelling easier.

It is compatible with any EVS25 from 2009 to present and the EVS35 from 2014 to present.

\$450.00

EVS Bag Cart

Although your tower comes with wheels, the travel bag does not. You can have all the mobility with the travel bag by adding the EVS bag cart. It is quickly and easily added to the bag for easy transporting.

\$165.00

(Cart not included)

EVS custom made cables are designed for our towers to be connected directly to Sony cameras They are coiled to avoid ground contact and prevent tangles and damage.

EVS-CDCAV.....\$95.00

This remote is specifically designed for tripods. The handle design makes controlling the camcorder functions and pan/tilt a one hand operation.

EVSREM.....\$185.00

7 Inch LCD monitor is custom made for outside use. It is constructed with a metal outer shell for durability and has a sharp, bright picture that shows up in most lighting. It uses a Sony lithium ion battery that gives you up to 8 hours of use.

EVS-SG7.....\$450.00

The Sony QM 91D battery is a long lasting power source for the 7 inch LCD monitor . It is a quick charging info lithium battery pack that will keep your monitor running for up to 8 hours.

QM91D.....\$139.00

The EVS sun hood provides the monitor protection from direct sun light allowing the operator to always have a sharp bright picture. It quickly and easily velcros to the monitor.

EVS-SH.....\$25.00

Custom designed retractable reel provides the operator the ability to tilt the camcorder. It is retractable so that there aren't any long cables laying on the ground when the tower is in the down position.

EVS-TR09.....\$250.00

Water tight case to help protect the electronics while you are traveling or the system is not in use. Fully lined foam insert to absorb the shock.

EVS HC-10.....\$125.00

Sony extended life lithium ion battery. Provides power to camcorders for up to 8 hours. Check compatibility with camcorder.

Sony NP-FV100 ...\$139.00

The Monitor Charger charges the QM91D battery which is the battery used for our monitors. It has retractable prongs for placing into outlets.

Monitor Charger ...\$70.00
