System Includes:

- 35 FT Mast
- Winch System
- Tripod Base w/Wheels
- Patented Pan/Tilt
- Custom Cables
- EVS Remote
- 7 Inch Color LCD
- Extended Life Battery
- Protective Hard Case
- 5 Year Warranty

Like all of our towers the EVS35 is raised and lowered by using our easy lift winch system.

EVS25

System Includes:

- 25 FT mast/tripod combo
- Winch System
- Patented Pan/Tilt Custom
- Cables
- EVS Remote
- 7 Inch LCD Monitor
- Extended Life Battery
- Protective Hard Case
- Wheels

Top selling for over a decade because of its versatility and ease of operation. The EVS25 has stood the test of time with standard options such as the unbeatable winch system, the patented pan/tilt, and other features that set it apart from all others.

EVS12

The New EVS12 lets you control the pan and tilt just like the full size towers but is still light enough to carry from drill to drill. No more leaning and tilting the entire tower to get your shot and will stand alone without being held.

- 12 Foot mast
- Tilt Head
- Tilt/remote reel
- Tripod Base
- Monitor
- Cables

\$2900.00

Wide and Tight Pressbox System

The System Includes:

Multi Adjustable Tripdod Stand
Double Mount Platform
Two Monitors
One Dual Camera Remote
Two HD Camcorders
Cables

\$2,599.00

Wide and tight pressbox system is designed so that only one operator can video both the wide and tight angles during the game. It takes up less area and provides you with video that is started and stopped in sync.

EVS GrandLINK

Grand LINK

Transmitter

Wide & Tight Pressbox

\$1,599.00

Endzone Tower

Receiver

With Grand LINK you will be able to start and stop the recording of three cameras using only one button. All you do is swap out the press box and end zone remotes with the Grand LINK remotes.

The transmitter remote will connect to your wide and tight press box set up and will be the remote used to start and stop all recording.

The receiver remote will replace your end zone remote and will receive the "Record" demand from the press box. Only the zoom will be operated from this remote.

EVS Travel Case

The case is designed to help protect the EVS25 and EVS35 while shipping or flying. It is custom made for our towers and will make travelling easier.

It is compatible with any EVS25 from 2009 to present and the EVS35 from 2014 to present.

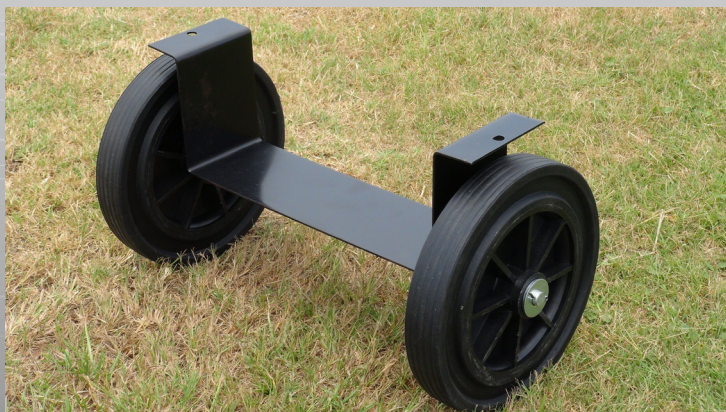

\$450.00

EVS Bag Cart

Although your tower comes with wheels, the travel bag does not. You can have all the mobility with the travel bag by adding the EVS bag cart. It is quickly and easily added to the bag for easy transporting.

\$165.00

(Cart not included)

Remote control for Canon, Panasonic or older Sony model cameras.
